Attachments: Copy of EOsterilizersInfo_Region6.xlsx

There is a difference in what NATA shows and a complete list of medical sterilizers. I got the attached *preliminary* list of R6 **medical** sterilizers from Jonathan Witt, the reg writer in OAQPS.

Ex. 5 Deliberative Process (DP)

Many facilities on the preliminary OAQPS list are medical care facilities that probably do some medical sterilization on site, but are not commercial sterilizer facilities.

Can you sort the NATA list and provide a list of all sterilizers in R6? Apparently, there is a Sterigenics facility in Grand Prairie.

Also, can you search out a list of Sterigenics facilities in R6, whether they are on the NATA list or not?

Thanks. Any chance to get this by tomorrow noon?
